onderwerp **Support for Cleaner Car Contracts**

Dear Sir,

Within Advies- en Ingenieursbureau Oranjewoud, corporate responsibility is about how we do business. Protecting the environment and improving the sustainability of our business is a key element of our CR commitment. Part of that endeavor is to minimise the carbon emissions of our lease fleet.

Oranjewoud BV leases a fleet of over 600 passenger cars. Naturally, we require the vehicles we lease to be as fuel efficient as possible.

That is why we are pleased that our business partner Athlon Car Lease recently signed a Gold Fleet Cleaner Car Contract. This move demonstrates their ambition to be a front-runner in improving the fuel efficiency of lease fleets.

The Gold Fleet ambition aims to achieve a fleet average of 120 grams of CO<sub>2</sub> per kilometer for all newly acquired fleets in 2012. This target goes beyond the European requirements for vehicle fuel efficiency.

Oranjewoud BV fully supports the Gold Fleet ambition and strives to assist Athlon Car Lease in achieving its target. This way, we jointly aim for a faster introduction of more fuel-efficient cars on the market.

Yours sincerely,

ing. M. (Menno) Smits  
director
